Thank you Patty - I was able to login and download the posted documents.

Carl thinks he may be able to locate the Litaor article. We will forward it along to everyone if located.

Lindsay,

Thank you for your comments.

With regard to the list of citations under Group Topic L in the Appendix I table...I have found most of the papers cited in the DU Law letter and have posted them to the EFT website. I could not locate the Smallwood (pg. 6) or Litaor (pg. 8) studies mentioned in the DU Law letter. I've also posted other items from the Admin Record that speak directly to the 1999 Kersting article which show the AME group considered this paper. As Carl suggested, it might be prudent to contact Annie Kersting to inquire about the 5-year colloid study mentioned in the 2011 Heller article (also posted on the EFT site). The report that is cited as Win Chromec (p. 10 of DU Law letter) is over 400 pages – you may want to look at Section 11.0 (starting on page 50), which contains the language the letter references regarding flood events (page 10 of letter) and the 1995 Iggy Litaor study (page 8 of letter).

If you have any problems accessing the EFT site or the articles, please let me know.

Subject: FYR Appendix I - Masters comments

Patty,

A few more comments on the draft Appendix. My priority comment would be the one asking for more re Walnut Creek and sediments.

Please let me know if you have any questions. Thank you again for pulling this together.

Kind regards,
